# Truly Exponential

Early on, we have embraced new technologies to create a completely digital workplace where teams distributed around the world work seamlessly across the virtual & physical environment.

Our teams operate digitally as they would from the office. For us, geography is history!

Of course, we see the significance of the physical world we live in and the timeless charm and effectiveness of in-person meetings and we are glad to get on the road or meet at our offices to engage with our clients who prefer to do business in person.
